

Core Paper: Intellectual Traditions of Development

The Core Paper 'Intellectual Traditions of Development' will be offered in the Michaelmas term and will cover major theoretical and methodological approaches in the field of development studies. It will offer students the opportunity to learn about cutting edge scholarship and debates in development thinking and practice. Its main building blocks will include lectures around:

Colonial and Imperial Beginnings

International Trade, Globalization, and Development

The Changing Role of the State in Development

Development and Technological Change

Conflict and Development

Civil Society and Social Movements

Food Security

Gender and Development

Education Systems and Implications for Knowledge Production

Development Out of the Ordinary

Cities and Development
